A Jacobs & Thompson Company

MD-90 NON-SKID XLPE FOAMS

- Lightweight and durable low density closed cell foam
- Brushed surface with superior non-skid characteristics
- Provides cushion, underfoot comfort and a high level of traction in all weather conditions
- Closed cell structure provides longevity, minimal water or grease absorption
- Easy to be custom routed and fabricated
- 6mm x 48”x 96” sheet size to maximize yielding
- Stock in house for immediate shipment

APPLICATIONS

- Marine and boat decking
- Non-skid padding applications
- Swim platform pads
- Paddle board/kayak traction pad
- Coaming bolsters

WHY WORLDWIDE FOAM

- Market leader of closed cell foams and sponge materials
- 7 strategic locations across North America
- Shortest lead time in the industry
- Marine grade adhesive application available
