Statement on Stockholm Convention on Persistent Organic Pollutants (POPs) 11-August-2023

The Stockholm Convention on Persistent Organic Pollutants is a global treaty to protect human health and the environment from chemicals that remain intact in the environment for long periods, become widely distributed geographically, accumulate in the fatty tissue of humans and wildlife, and have harmful impacts on human health or on the environment.

The Stockholm Convention on POPs was adopted in May 2001 and entered into force on 17 May 2004 and the full list of updated substances can be found at <https://www.echa.europa.eu/list-of-substances-subject-to-pops-regulation>
